

PUBLIC WORKS - ENGINEERING

STL-261 WILLOW STREET BRIDGE REPLACEMENT PROJECT CALTRANS BRIDGE NO. 57C-0011

PROJECT NEED

The Willow Street Bridge Replacement Project will:

- Provide standard traffic lane widths along the bridge;
- Provide bike lanes along both sides of the bridge;
- Provide a fully accessible sidewalk along the westerly and easterly sides of the bridge;
- Provide updated bridge railings/barriers; and
- Provide standard guardrail approach transitions.

PROJECT FEATURES

- The approximate 610-foot-long, 4-lane replacement bridge will be built within the existing City of Chula Vista / County of San Diego right-of-way;
- The bridge structure will be a multi-span bridge supported on concrete columns;
- The bridge structure will be approximately 2-feet deep;
- The bridge will include 1-northbound lane, 1-dedicated northbound right-turn-lane onto Sweetwater Road and 2-southbound lanes;
- The design of the proposed bridge will allow for the continuation of the existing equestrian trail undercrossing, sidewalks and bike lanes; and
- Willow Street will remain open to traffic during the duration of the project.

CONSTRUCTION COST & FUNDING

- \$14,906,866 Federally funded by the Federal Highway Bridge Program (HBP) and \$2,150,552 locally funded by developer fees and other local sources.

PROJECT SCHEDULE

- Design / Environmental Clearance / Right-of-Way: September 2009 through September 2012
- Construction: October 2012 through March 2014

PROJECT MANAGER

- City of Chula Vista: Jose Luis Gomez, P.E., P.L.S. Ph. 619-476-2301
- County of San Diego: Michael Long, P.E. Ph. 858-495-5794
